## DOWNTOWN STREETCAR ROUTE

ALL ABOARD  
THE KC STREETCAR

## Downtown is Open for Business

Construction of the Downtown Kansas City streetcar route officially began in May 2014. The completed Downtown line will serve the city's River Market, Central Business District, the Crossroads Arts District, the Power & Light District and numerous businesses, restaurants, bars, art galleries, educational centers and residential neighborhoods.

Construction is anticipated to be complete in fall 2015, followed by a period of testing. It is expected by the end of 2015, the first streetcar rides will occur through Downtown in more than 50 years.

---

## Navigating the Construction Zone

During construction, we are committed to minimizing impacts to those who operate businesses along the route, as well as to those who live, work and visit Downtown. The KC Streetcar Constructors and the Tactical Urbanism forces of the Downtown Council have created several free tools to make good on that commitment:

### APPLE & ANDROID APP

Open for Business – KC Streetcar

### \$5,000 GRAND PRIZE

for most check-ins at retailers during construction
