RE: Letter of Support for BUILD Grant Application

Dear Mr. Makinen:

As the U.S. Department of Transportation considers applications for BUILD Discretionary Grants, the Mid-America Regional Council wishes to convey its support for the KC-CORE application submitted by the Kansas City Area Transportation Authority in partnership with the city of Kansas City, Missouri, the Kansas City Streetcar Authority and the Port Authority of Kansas City, Missouri. MARC serves as the council of governments and metropolitan planning organization for Greater Kansas City.

KC-CORE (Connecting Our Riverfront to Everyone), is an innovative multi-modal project to reconnect Kansas City's historic Berkley Riverfront to the heart of downtown Kansas City. The project includes a northern extension of the highly successful KC Streetcar system in addition to new dedicated pedestrian and bicycle facilities. This three-quarter-mile project is a natural extension of the KC Streetcar starter line, and will advance integrated commuter options – including recreation, bike, pedestrian, and parking for the RideKC regional system. Moreover, this project will bridge existing railroad barriers and connect over 50 acres of development-ready ground to downtown KC – further expediting the rate and value of economic development.

This project is fully consistent with *Transportation Outlook 2040*, the region's long-range transportation plan and is a priority of the *Smart Moves* regional transit vision and, as such, demonstrates the support of the entire Kansas City region for this important investment.

The Mid-America Regional Council supports funding this BUILD application; and we look forward to working with you to make this important project a reality.

Sincerely,

A handwritten signature in black ink, appearing to read "David A. Warm", with a stylized flourish at the end.
